You may wish to consider the following ...

Today when computer companies are starting up and closing down fast, it is nice to know that one Local company is still around and going strong. *(we are now into our 20th year)* we have always thought long term and like to feel once a JAPHLIN Customer always a JAPHLIN Customer. We all know of companies who pay for computer maintenance only to find the company providing the maintenance disappears leaving them with a worthless contract and lost money.

[We are constantly looking for ways to improve our service to customers and will welcome at all times comments and suggestions from you all.](#)
